

Request for Council Action

Originator Public Health	Item Approve Car Seat Education Program Letter of Agreement (LOA) with Medica Health Plans
Agenda Section Consent Business	Date 10/24/2016

Description

The City Council is requested to approve the new Letter of Agreement (LOA) with Medica Health Plans (Medica) so the City, through its Public Health Division (BPH), can continue providing car seats and relevant safety education to families with children ages birth to or eight (8) years who are enrolled in Medica's State Public Programs.

BPH's certified Child Passenger Safety Technicians will continue ordering car seats and delivering them to eligible clients during office appointments or home visits, at which time, installation training, demonstration and education take place. Medica will continue to provide car seats to BPH at no cost to the City.

The term of this Agreement is from July 1, 2016 through December 31, 2018, with no cost to the City (BPH is reimbursed for the home visits/education training by billing Medica). Therefore, approval of this LOA does not require an adjustment to Public Health's budget.

The City Attorney's office has reviewed and approved this LOA.

Item created by: Nancy Tadros, Public Health Division
Presenter: Bonnie Paulsen, Public Health Administrator

Requested Action

Approve Car Seat Education Program LOA with Medica Health Plans.
